ASSET & VISION

Bangor Shared Space – The Courthouse

WHY BANGOR SHARED SPACE?

In recent years Bangor has become largely a dormitory town. It suffers from a lack of identity and an underdeveloped local economy. Bangor Shared Space hopes to present a case for community led regeneration to help to revitalise the town and respond to the empty spaces in its centre. The aim of The Courthouse Project is to restore the building and create a use that is a catalyst to enliven the Town Centre, transforming a neglected space into a testimony of what Bangor can do for itself.
