

# THE ASSET & VISION

Ardoyne Youth Providers' Forum

## WHO ARE WE?

By transferring ownership of St Gemma's School to the Ardoyne Youth Providers, an organisation which has been instrumental in working for and with the local community, we will be able to utilise the asset in a way which best benefits Marrowbone and Ardoyne. The Forum has excellent relationships with all of the community groups working in the districts and envisions a multi-use site which can benefit other groups in the area. By taking ownership of the asset, the Forum also seeks to raise revenue from rental and other income to be invested back into the asset to allow it to grow organically and to support other community projects.
